		2	3	4	5
	Severity	Minor Injury or Property Damage	Serious Injury or Major Property Damage	Grievous Injury	Life Threatening

= Significant (10 - 25)  
 = Review to determine if risk is ALARP ( 5 – 9 )  
 = Acceptable (1-4)

Description	Level	Definition
Product Damage	1	Damage due to component failure.
Minor Injury or property damage	2	An injury less than serious injury, possibly requiring first aid treatment; minor cuts or burns, irritation, conditions causing temporary discomfort. Damage due to heat, smoke, or water; localized structural or other property damage.
Serious Injury or major property damage	3	Injuries necessitating hospitalization which require actual medical or surgical treatment. These can include fractures, lacerations requiring sutures, burns, concussions, injuries to the eye, ear, or internal organs requiring medical treatment, and injuries necessitating the absence from school or work of more than one day. Significant property damage due to heat, fire, flooding, or any other product caused damage.
Grievous injury	4	Injuries resulting in mutilation, amputation, dismemberment, disfigurement, loss of important bodily functions, debilitating internal disorder, severe burn, severe electric shock, and injuries likely to include hospitalization. Examples include such things as permanent brain injury, paraplegia, blindness or other permanent loss of senses, compound fractures, third-degree burns over more than 10% of the body and second-degree burns over more than 30% of the body.
Life threatening	5	Could result in death
